

Alpha-L-Fucosidase Assay Kit

Catalog # KA6200 Size 1 Kit

Applications

The titration curve is for the purpose of illustration only and should not be used to calculate unknowns. A titration curve should be generated each time the assay is performed.

Specification

Product Description	Alpha-L-Fucosidase Assay Kit is a quantitative colorimetric determination of alpha-L-Fucosidase activity in biological samples at 405 nm.
Suitable Sample	Plasma, serum, tissue, cell lysate, etc.
Sample Volume	10 μ L
Detection Method	Colorimetric
Assay Type	Quantitative
Calibration Range	1 to 100 U/L
Limit of Detection	1 U/L
Regulatory Status	For research use only (RUO)
Quality Control Testing	Titration Curve The titration curve is for the purpose of illustration only and should not be used to calculate unknowns. A titration curve should be generated each time the assay is performed.
Storage Instruction	Store the kit at -20°C.

Applications

- Functional Study
