

ALDH Inhibitor Screening Assay Kit

Catalog # KA6214

Size 1 Kit

Applications

Result data

Result data

□

Disulfiram titrations: The ALDH Inhibitor Screening Assay Kit from baker's yeast was incubated with various concentrations of Disulfiram. Each concentration of inhibitor contained 10 v/v% DMSO (final 0.5 v/v% in 100 uL reaction).

Specification

Product Description	ALDH Inhibitor Screening Assay Kit is used for screening and evaluation of aldehyde dehydrogenase inhibitor.
Sample Volume	5 uL
Detection Method	Colorimetric
Regulatory Status	For research use only (RUO)
Storage Instruction	Store at -20°C. Avoid multiple freeze-thaw cycles.
