

VEGFA monoclonal antibody, clone VG-1

Catalog # MAB0294

Size 100 ug

Specification

Product Description	Mouse monoclonal antibody raised against full length recombinant VEGFA.
Immunogen	Recombinant protein corresponding to full length human VEGFA.
Host	Mouse
Reactivity	Human
Specificity	This antibody detects the 121, 165, and 189 VEGF isoforms of human origin.
Form	Liquid
Isotype	IgG1
Recommend Usage	Western Blot (1:200) immunohistochemistry (1:50) The optimal working dilution should be determined by the end user.
Storage Buffer	In PBS (0.2% gelatin, 0.09% sodium azide)
Storage Instruction	Store at 4°C. Do not freeze.
Note	This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Applications

- Western Blot (Cell lysate)
- Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)
- Immunohistochemistry (Frozen sections)
- Enzyme-linked Immunoabsorbent Assay

Gene Info — VEGFA

Entrez GeneID [7422](#)

Gene Name VEGFA

Gene Alias MGC70609, VEGF, VEGF-A, VPF

Gene Description vascular endothelial growth factor A

Omim ID [125853 192240](#)

Gene Ontology [Hyperlink](#)

Gene Summary This gene is a member of the PDGF/VEGF growth factor family and encodes a protein that is often found as a disulfide linked homodimer. This protein is a glycosylated mitogen that specifically acts on endothelial cells and has various effects, including mediating increased vascular permeability, inducing angiogenesis, vasculogenesis and endothelial cell growth, promoting cell migration, and inhibiting apoptosis. Elevated levels of this protein is linked to POEMS syndrome, also known as Crow-Fukase syndrome. Mutations in this gene have been associated with proliferative and nonproliferative diabetic retinopathy. Alternatively spliced transcript variants, encoding either freely secreted or cell-associated isoforms, have been characterized. There is also evidence for the use of non-AUG (CUG) translation initiation sites upstream of, and in-frame with the first AUG, leading to additional isoforms. [provided by RefSeq]

Other Designations vascular endothelial growth factor isoform VEGF165|vascular permeability factor
