

HA (H1N1) monoclonal antibody, clone IT-015

Catalog # MAB10128 Size 100 ug

Specification

Product Description	Mouse monoclonal antibody raised against recombinant HA (H1N1).
Immunogen	Recombinant protein corresponding to HA (A/New Caledonia/20/99)(H1N1). Conformational epitope .
Host	Mouse
Specificity	Reacts with most HA (H1N1) seasonal flu strains (post 1999). Cross-reactivity to other subtypes not tested.
Form	Liquid
Isotype	IgG1
Recommend Usage	The optimal working dilution should be determined by the end user.
Storage Buffer	In PBS (40% glycerol).
Storage Instruction	Store at 4°C. For long term storage store at -20°C. Aliquot to avoid repeated freezing and thawing.

Applications

- Western Blot
- Immunofluorescence
- Immunoprecipitation
- Enzyme-linked Immunoabsorbent Assay
