

ITGA3 monoclonal antibody, clone VJ1/6 (PerCP)

Catalog # MAB13694 Size 100 Reactions

Applications

Flow Cytometry

Flow cytometric analysis of human peripheral blood with ITGA3 monoclonal antibody, clone VJ1/6 (PerCP) (Cat # MAB13694).

Specification

Product Description	Mouse monoclonal antibody raised against human ITGA3.
Immunogen	TNF activated HUVEC cells.
Host	Mouse
Theoretical MW (kDa)	150
Reactivity	Human
Form	Liquid
Conjugation	PerCP
Purification	Protein A/G purification
Purity	>90%
Isotype	IgG1

Recommend Usage

Flow Cytometry (20 μ L/10⁶ cells)
The optimal working dilution should be determined by the end user.

Storage Buffer

In PBS, pH 7.4 (protein stabilizer, 0.09% sodium azide).

Storage Instruction

Store in the dark at 4°C.

Note

This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Applications

- Flow Cytometry

Flow cytometric analysis of human peripheral blood with ITGA3 monoclonal antibody, clone VJ1/6 (PerCP) (Cat # MAB13694).

Gene Info — ITGA3

Gene Summary

The protein encoded by this gene belongs to the family of integrins. Integrins are heterodimeric integral membrane proteins composed of an alpha chain and a beta chain, and function as cell surface adhesion molecules. This gene encodes alpha 3 subunit, which undergoes post-translational cleavage in the extracellular domain to yield disulfide-linked light and heavy chains that join with beta 1 subunit to form an integrin that interacts with many extracellular-matrix proteins. Alternatively spliced transcript variants encoding different isoforms have been identified for this gene. [provided by RefSeq]
