

ITGA2B monoclonal antibody, clone HIP8 (APC)

Catalog # MAB13901 Size 100 Reactions

Applications

Flow Cytometry

Flow cytometric analysis of human normal whole blood with ITGA2B monoclonal antibody, clone HIP8 (APC) (Cat # MAB13901).

Specification

Product Description	Mouse monoclonal antibody raised against human ITGA2B.
Immunogen	Idiopathic thrombocytopenic purpura (IPT) patient platelets.
Host	Mouse
Theoretical MW (kDa)	25
Reactivity	Human
Form	Liquid
Conjugation	APC
Purification	Protein A/G purification
Purity	>90%
Isotype	IgG1, kappa

Recommend Usage	Flow Cytometry (20 uL/10 ⁶ cells) Immunohistochemistry (Frozen sections) The optimal working dilution should be determined by the end user.
Storage Buffer	In PBS, pH 7.4 (protein stabilizer, 0.09% sodium azide).
Storage Instruction	Store in the dark at 4°C. Avoid prolonged exposure to light.
Note	This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Applications

- Immunohistochemistry (Frozen sections)

- Flow Cytometry

Flow cytometric analysis of human normal whole blood with ITGA2B monoclonal antibody, clone HIP8 (APC) (Cat # MAB13901).

Gene Info — ITGA2B

Entrez GeneID	3674
Protein Accession#	P08514
Gene Name	ITGA2B
Gene Alias	CD41, CD41B, GP2B, GPIIb, GTA, HPA3
Gene Description	integrin, alpha 2b (platelet glycoprotein IIb of IIb/IIIa complex, antigen CD41)
Omim ID	273800 607759
Gene Ontology	Hyperlink
Gene Summary	ITGA2B encodes integrin alpha chain 2b. Integrins are heterodimeric integral membrane proteins composed of an alpha chain and a beta chain. Alpha chain 2b undergoes post-translational cleavage to yield disulfide-linked light and heavy chains that join with beta 3 to form a fibronectin receptor or expressed in platelets that plays a crucial role in coagulation. Mutations that interfere with this role result in thrombasthenia. In addition to adhesion, integrins are known to participate in cell-surface mediated signalling. [provided by RefSeq]
Other Designations	integrin alpha 2b platelet fibrinogen receptor, alpha subunit platelet-specific antigen BAK
