

SELP monoclonal antibody, clone P.seK02.22 (Biotin)

Catalog # MAB15343 Size 100 ug

Specification

Product Description	Mouse monoclonal antibody raised against human SELP.
Immunogen	Human platelet membrane glycoproteins.
Host	Mouse
Theoretical MW (kDa)	140
Reactivity	Human
Form	Liquid
Conjugation	Biotin
Purification	Affinity purification
Isotype	IgG2b
Recommend Usage	Flow Cytometry (20 μ L/ 10^6 cells) The optimal working dilution should be determined by the end user.
Storage Buffer	In PBS, pH 7.4 (protein stabilizer, 0.09% sodium azide).
Storage Instruction	Store in the dark at 4°C.
Note	This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Applications

- Flow Cytometry

Gene Info — SELP

Entrez GeneID	6403
Protein Accession#	P16109
Gene Name	SELP
Gene Alias	CD62, CD62P, FLJ45155, GMP140, GRMP, LECAM3, PADGEM, PSEL
Gene Description	selectin P (granule membrane protein 140kDa, antigen CD62)
Omim ID	147050 173610
Gene Ontology	Hyperlink
Gene Summary	This gene encodes a 140 kDa protein that is stored in the alpha-granules of platelets and Weibel-Palade bodies of endothelial cells. This protein redistributes to the plasma membrane during platelet activation and degranulation and mediates the interaction of activated endothelial cells or platelets with leukocytes. The membrane protein is a calcium-dependent receptor that binds to sialylated forms of Lewis blood group carbohydrate antigens on neutrophils and monocytes. Alternative splice variants may occur but are not well documented. [provided by RefSeq]
Other Designations	OTTHUMP00000032609 antigen CD62 granulocyte membrane protein leukocyte-endothelial cell adhesion molecule 3 platelet alpha-granule membrane protein selectin P selectin P (granule membrane protein 140kD, antigen CD62)
