

SELE monoclonal antibody, clone TEA2/1 (FITC)

Catalog # MAB15348

Size 100 Reactions

Specification

Product Description	Mouse monoclonal antibody raised against full length recombinant SELE.
----------------------------	--

Immunogen	Recombinant protein corresponding to full length human SELE.
------------------	--

Host	Mouse
-------------	-------

Theoretical MW (kDa)	97-115
-----------------------------	--------

Reactivity	Human
-------------------	-------

Form	Liquid
-------------	--------

Conjugation	FITC
--------------------	------

Purification	Affinity purification
---------------------	-----------------------

Isotype	IgG2b
----------------	-------

Recommend Usage	Flow Cytometry (20 μ L/ 10^6 cells) The optimal working dilution should be determined by the end user.
------------------------	---

Storage Buffer	In PBS, pH 7.4 (protein stabilizer, 0.09% sodium azide).
-----------------------	--

Storage Instruction	Store in the dark at 4°C.
----------------------------	---------------------------

Note	This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.
-------------	--

Applications

- Flow Cytometry

Gene Info — SELE

Entrez GeneID	6401
Protein Accession#	P16581
Gene Name	SELE
Gene Alias	CD62E, ELAM, ELAM1, ESEL, LECAM2
Gene Description	selectin E
Omim ID	131210 145500 161950
Gene Ontology	Hyperlink
Gene Summary	The protein encoded by this gene is found in cytokine-stimulated endothelial cells and is thought to be responsible for the accumulation of blood leukocytes at sites of inflammation by mediating the adhesion of cells to the vascular lining. It exhibits structural features such as the presence of lectin- and EGF-like domains followed by short consensus repeat (SCR) domains that contain 6 conserved cysteine residues. These proteins are part of the selectin family of cell adhesion molecules. Adhesion molecules participate in the interaction between leukocytes and the endothelium and appear to be involved in the pathogenesis of atherosclerosis. [provided by RefSeq]
Other Designations	OTTHUMP00000032745 endothelial adhesion molecule 1 leukocyte endothelial cell adhesion molecule 2
