

STAT3 monoclonal antibody, clone CL0490

Catalog # MAB15635 Size 100 uL

Applications

Western Blot (Cell lysate)

Western Blot analysis of RT-4 cell lysate with STAT3 monoclonal antibody, clone CL0490 (Cat # MAB15635).

Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

Immunohistochemical staining (Formalin-fixed paraffin-embedded sections) of human prostate with STAT3 monoclonal antibody, clone CL0490 (Cat # MAB15635) shows strong nuclear and moderate cytoplasmic immunoreactivity in tumor cells.

Specification

Product Description	Mouse monoclonal antibody raised against partial recombinant human STAT3.
Immunogen	Recombinant protein corresponding to human STAT3.
Epitope	This antibody binds to an epitope located within the peptide sequence TKFICVPTTCSNTI as determined by overlapping synthetic peptides.
Sequence	GVTFTWVEKDISGKTQIQSVEPYTKQQLNMSFAEIMGYKIMDATNILVSPLVLYPDIPKEEAFGK YCRPESQEHPADPGSAAPYLKTKFICVPTTCSNTIDLPMSPRTLDSLQMGNGEGAEPSAGG QFESLTFDMELTSECA

Host	Mouse
Reactivity	Human
Form	Liquid
Purification	Protein A purification
Isotype	IgG1
Recommend Usage	Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections) (1:200-1:500) Western Blot (1:500-1:1000) The optimal working dilution should be determined by the end user.
Storage Buffer	In PBS, pH 7.2 (40% glycerol, 0.02% sodium azide).
Storage Instruction	Store at 4°C. For long term storage store at -20°C. Aliquot to avoid repeated freezing and thawing.
Note	This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Applications

- Western Blot (Cell lysate)

Western Blot analysis of RT-4 cell lysate with STAT3 monoclonal antibody, clone CL0490 (Cat # MAB15635).

- Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

Immunohistochemical staining (Formalin-fixed paraffin-embedded sections) of human prostate with STAT3 monoclonal antibody, clone CL0490 (Cat # MAB15635) shows strong nuclear and moderate cytoplasmic immunoreactivity in tumor cells.

Gene Info — STAT3

Entrez GeneID	6774
Protein Accession#	P40763
Gene Name	STAT3
Gene Alias	APRF, FLJ20882, HIES, MGC16063
Gene Description	signal transducer and activator of transcription 3 (acute-phase response factor)
Omim ID	102582
Gene Ontology	Hyperlink

Gene Summary

The protein encoded by this gene is a member of the STAT protein family. In response to cytokines and growth factors, STAT family members are phosphorylated by the receptor associated kinases, and then form homo- or heterodimers that translocate to the cell nucleus where they act as transcription activators. This protein is activated through phosphorylation in response to various cytokines and growth factors including IFNs, EGF, IL5, IL6, HGF, LIF and BMP2. This protein mediates the expression of a variety of genes in response to cell stimuli, and thus plays a key role in many cellular processes such as cell growth and apoptosis. The small GTPase Rac1 has been shown to bind and regulate the activity of this protein. PIAS3 protein is a specific inhibitor of this protein. Three alternatively spliced transcript variants encoding distinct isoforms have been described. [provided by RefSeq]

Other Designations

DNA-binding protein APRF|acute-phase response factor|signal transducer and activator of transcription 3
