

FLG monoclonal antibody, clone FLG/1563

Catalog # MAB20965 Size 100 ug

Applications

Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

Immunohistochemical staining (Formalin-fixed paraffin-embedded sections) of human skin with FLG monoclonal antibody, clone FLG/1563 (Cat # MAB20965).

Specification

Product Description	Mouse monoclonal antibody raised against partial recombinant human FLG.
Immunogen	Recombinant protein corresponding to amino acids 998-1104 of human FLG.
Host	Mouse
Reactivity	Human
Form	Liquid
Purification	Protein A/G purification
Isotype	IgG2b, kappa
Recommend Usage	Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections) (0.5-1 ug/mL) The optimal working dilution should be determined by the end user.
Storage Buffer	In 10 mM PBS (0.05% BSA, 0.05% sodium azide).
Storage Instruction	Store at 2 to 8°C.
Note	This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Applications

- Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

Immunohistochemical staining (Formalin-fixed paraffin-embedded sections) of human skin with FLG monoclonal antibody, clone FLG/1563 (Cat # MAB20965).

Gene Info — FLG

Entrez GeneID	2312
Protein Accession#	P20930
Gene Name	FLG
Gene Alias	ATOD2
Gene Description	filaggrin
Omim ID	135940 146700 603165
Gene Ontology	Hyperlink
Gene Summary	Profilaggrin is a major protein component of the keratohyalin granules of mammalian epidermis. It is initially expressed as a large polypeptide precursor which is subsequently proteolytically processed into individual functional filaggrin molecules. The filaggrins show wide species variations and their aberrant expression has been implicated in a number of keratinizing disorders (Baden et al., 1974 [PubMed 4132224]; Holbrook et al., 1982 [PubMed 6174530]; Sybert et al., 1985 [PubMed 2579164]).[supplied by OMIM]
Other Designations	OTTHUMP00000014057 epidermal filaggrin
