

RecomAb™

MSH6 monoclonal antibody, clone RM376

Catalog # MAB22008 Size 100 uL

Applications

Western Blot (Cell lysate)

Western Blot (Cell lysate) analysis of HEK 293 cell lysates.

Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

Immunohistochemical staining of human colon cancer.

Specification

Product Description	Rabbit recombinant monoclonal antibody raised against human MSH6.
Antibody Species	Rabbit
Immunogen	Original antibody is raised against mammalian cell expressed recombinant protein corresponding to human MSH6.
Reactivity	Human
Specificity	This antibody reacts to human DNA mismatch repair protein MSH6.
Form	Liquid

Purification	Protein A purification
Isotype	IgG
Recommend Usage	Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections) (1:100-500) Western Blot (1:1000-2000) The optimal working dilution should be determined by the end user.
Storage Buffer	In PBS (50% glycerol, 1% BSA, 0.09% sodium azide)
Storage Instruction	Store at -20°C. Aliquot to avoid repeated freezing and thawing.
Note	This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Applications

- Western Blot (Cell lysate)

Western Blot (Cell lysate) analysis of HEK 293 cell lysates.

- Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

Immunohistochemical staining of human colon cancer.

Gene Info — MSH6

Entrez GeneID	2956
Gene Name	MSH6
Gene Alias	GTBP, HNPCC5, HSAP
Gene Description	mutS homolog 6 (E. coli)
Omim ID	600678
Gene Ontology	Hyperlink
Gene Summary	This gene encodes a protein similar to the MutS protein. In E. coli, the MutS protein helps in the recognition of mismatched nucleotides, prior to their repair. A highly conserved region of approximately 150 aa, called the Walker-A adenine nucleotide binding motif, exists in MutS homologs. The encoded protein of this gene combines with MSH2 to form a mismatch recognition complex that functions as a bidirectional molecular switch that exchanges ADP and ATP as DNA mismatches are bound and dissociated. Mutations in this gene have been identified in individuals with hereditary nonpolyposis colon cancer (HNPCC) and endometrial cancer. [provided by RefSeq]

Other Designations

G/T mismatch-binding protein|mutS homolog 6|sperm-associated protein
