

E-Selectin monoclonal antibody, clone hCD62E

Catalog # MAB23624

Size 500 ug

Specification

Product Description	Mouse monoclonal antibody raised against synthetic peptide of human E-Selectin.
----------------------------	---

Immunogen	Purified, Activated T-Cells
------------------	-----------------------------

Host	Mouse
-------------	-------

Form	Lyophilized
-------------	-------------

Purification	Ion-Exchange Column
---------------------	---------------------

Isotype	IgG1
----------------	------

Recommend Usage	For staining (10 μ L/1,000,000 cells) The optimal working dilution should be determined by the end user.
------------------------	---

Storage Buffer	Lyophilized from 1 mg/mL in PBS
-----------------------	---------------------------------

Storage Instruction	Store at 4°C on dry atmosphere. After reconstitution with 1 mL of deionized water, store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.
----------------------------	---

Applications

- SDS-PAGE

Gene Info — SELE

Entrez GeneID	6401
----------------------	----------------------

Gene Name	SELE
------------------	------

Gene Alias	CD62E, ELAM, ELAM1, ESEL, LECAM2
-------------------	----------------------------------

Gene Description	selectin E
Omim ID	131210 145500 161950
Gene Ontology	Hyperlink
Gene Summary	The protein encoded by this gene is found in cytokine-stimulated endothelial cells and is thought to be responsible for the accumulation of blood leukocytes at sites of inflammation by mediating the adhesion of cells to the vascular lining. It exhibits structural features such as the presence of lectin- and EGF-like domains followed by short consensus repeat (SCR) domains that contain 6 conserved cysteine residues. These proteins are part of the selectin family of cell adhesion molecules. Adhesion molecules participate in the interaction between leukocytes and the endothelium and appear to be involved in the pathogenesis of atherosclerosis. [provided by RefSeq]
Other Designations	OTTHUMP00000032745 endothelial adhesion molecule 1 leukocyte endothelial cell adhesion molecule 2
