

MMP1 monoclonal antibody, clone SB12e

Catalog # MAB3329

Size 100 ug

Specification

Product Description	Mouse monoclonal antibody raised against recombinant MMP1.
Immunogen	Recombinant protein corresponding to human MMP1.
Host	Mouse
Reactivity	Human
Specificity	human MMP-1, Does not cross react to human MMP-2, MMP-3 or MMP-9.
Form	Liquid
Isotype	IgG2b
Recommend Usage	ELISA (1:3000-1:8000) Immunohistochemistry (2 ug/mL) The optimal working dilution should be determined by the end user.
Storage Buffer	In 100 mM BBS, pH 8.2
Storage Instruction	Store at 4°C.

Applications

- Western Blot
- Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)
- Immunohistochemistry (Frozen sections)
- Enzyme-linked Immunoabsorbent Assay

Gene Info — MMP1

Entrez GeneID [4312](#)

Gene Name MMP1

Gene Alias CLG, CLGN

Gene Description matrix metallopeptidase 1 (interstitial collagenase)

Omim ID [120353 606963](#)

Gene Ontology [Hyperlink](#)

Gene Summary Proteins of the matrix metalloproteinase (MMP) family are involved in the breakdown of extracellular matrix in normal physiological processes, such as embryonic development, reproduction, and tissue remodeling, as well as in disease processes, such as arthritis and metastasis. Most MMP's are secreted as inactive proproteins which are activated when cleaved by extracellular proteinases. This gene encodes a secreted enzyme which breaks down the interstitial collagens, types I, II, and III. The gene is part of a cluster of MMP genes which localize to chromosome 11q22.3. Alternative splicing results in multiple transcript variants.[provided by RefSeq]

Other Designations fibroblast collagenase|interstitial collagenase|matrix metalloprotease 1|matrix metalloproteinase 1|matrix metalloproteinase 1 (interstitial collagenase)
