

CD86 monoclonal antibody, clone BU63

Catalog # MAB3846 Size 100 ug

Applications

Flow Cytometry

Surface staining of human peripheral blood cells with CD86 monoclonal antibody, clone BU63 (Cat # MAB3846) - PerCP (monocyte gate).

Specification

Product Description	Mouse monoclonal antibody raised against native CD86.
Immunogen	Native purified CD86 from human ARH-77 cell.
Host	Mouse
Theoretical MW (kDa)	70
Reactivity	Human
Specificity	This antibody reacts with CD86 (B7-2), a 70 KDa type I transmembrane glycoprotein of immunoglobulin supergene family, expressed on professional antigen-presenting cells, such as dendritic cells, macrophages or activated B lymphocytes.
Form	Liquid
Isotype	IgG1
Recommend Usage	The optimal working dilution should be determined by the end user.
Storage Buffer	In PBS, pH 7.4 (0.09% sodium azide)

Storage Instruction

Store at 4°C. Do not freeze.
Aliquot to avoid repeated freezing and thawing.

Note

This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Applications

- Immunocytochemistry
- Immunoprecipitation
- Flow Cytometry

Surface staining of human peripheral blood cells with CD86 monoclonal antibody, clone BU63 (Cat # MAB3846) - PerCP (monocyte gate).

Gene Info — CD86

Entrez GeneID[942](#)**Gene Name**

CD86

Gene Alias

B7-2, B70, CD28LG2, LAB72, MGC34413

Gene Description

CD86 molecule

Omim ID[601020](#)**Gene Ontology**[Hyperlink](#)**Gene Summary**

This gene encodes a type I membrane protein that is a member of the immunoglobulin superfamily. This protein is expressed by antigen-presenting cells, and it is the ligand for two proteins at the cell surface of T cells, CD28 antigen and cytotoxic T-lymphocyte-associated protein 4. Binding of this protein with CD28 antigen is a costimulatory signal for activation of the T-cell. Binding of this protein with cytotoxic T-lymphocyte-associated protein 4 negatively regulates T-cell activation and diminishes the immune response. Alternative splicing results in two transcript variants encoding different isoforms. Additional transcript variants have been described, but their full-length sequences have not been determined. [provided by RefSeq]

Other Designations

B-lymphocyte activation antigen B7-2|B7-2 antigen|CD28 antigen ligand 2|CD86 antigen|CD86 antigen (CD28 antigen ligand 2, B7-2 antigen)|CTLA-4 counter-receptor B7.2
