

Blood group antigen A1B monoclonal antibody, clone HE-24

Catalog # MAB5325

Size

Specification

Product Description	Mouse monoclonal antibody raised against partial native Blood group antigen A1B.
Immunogen	Native purified from glycoprotein fraction isolated from saliva of secretors with blood group A.
Host	Mouse
Reactivity	Human
Specificity	This antibody distinguishes blood group A1B from A2B. The specificity of This antibody HE-24 was verified on >1000 samples of blood.
Form	Liquid
Isotype	IgM
Recommend Usage	The optimal working dilution should be determined by the end user.
Storage Buffer	In culture supernatant
Storage Instruction	Store at 4°C. For long term storage store at -20°C. Aliquot to avoid repeated freezing and thawing.

Applications

- Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)
- Agglutination
