

Helicobacter pylori CagA monoclonal antibody, clone 10E9

Catalog # MAB8102

Size 500 ug

Specification

Product Description	Mouse monoclonal antibody raised against recombinant <i>Helicobacter pylori</i> CagA.
----------------------------	---

Immunogen	Recombinant protein corresponding to <i>Helicobacter pylori</i> CagA.
------------------	---

Host	Mouse
-------------	-------

Reactivity	<i>Helicobacter pylori</i>
-------------------	----------------------------

Form	Lyophilized
-------------	-------------

Isotype	IgG2a
----------------	-------

Recommend Usage	The optimal working dilution should be determined by the end user.
------------------------	--

Storage Buffer	Lyophilized from 10 mM PBS
-----------------------	----------------------------

Storage Instruction	Store at -20°C. Aliquot after reconstitution to avoid repeated freezing and thawing.
----------------------------	---

Applications

- Western Blot
- Enzyme-linked Immunoabsorbent Assay
