## PAFAH (Human) Recombinant Protein

Catalog # P6854

Size 20 ug

### Specification

Product Description	Human PAFAH recombinant protein expressed in 293 cells.
Host	Human
Theoretical MW (kDa)	47-55
Form	Lyophilized
Preparation Method	293 cells expression system
Purity	> 95% pure
Endotoxin Level	Endotoxin level is less than 0.1 ng per ug (1 EU/ug).
Activity	Measured by the ability to cleave a PAF analog in a chromogenic substrate linked assay. At a PAF-AH concentration of 10.0 ug/mL, 50% cleavage was achieved at an incubation time of approximately 2 minutes.
Storage Instruction	Store at 4°C. For long term storage store at -20°C. Aliquot to avoid repeated freezing and thawing.

### Applications

- Enzyme Activity
