

CXCL12 (Human) Recombinant Protein

Catalog # P9575

Size 2 x 10 ug

Specification

Product Description	Human CXCL12 (P48061, 22 a.a. - 93 a.a.) partial recombinant protein with His tag at N-terminus expressed in <i>Escherichia coli</i> .
Sequence	MGSSHHHHHHSSGLVPRGSHMKPVSLSYRCPCRFFESHVARANVKHLKILNTPNCALQIVARLKN NNRQVCIDPKLKWIQEYLEKALNKRFKM
Host	<i>Escherichia coli</i>
Theoretical MW (kDa)	10.8
Form	Liquid
Preparation Method	<i>Escherichia coli</i> expression system
Purity	> 90.0% by SDS-PAGE
Recommend Usage	Biological Activity SDS-PAGE The optimal working dilution should be determined by the end user.
Storage Buffer	In 20mM Tris-HCl pH 8.0 (10% glycerol)
Storage Instruction	Store at 2°C to 8°C for 1 week. For long term storage, aliquot and store at -20°C to -80°C. Aliquot to avoid repeated freezing and thawing.

Applications

- SDS-PAGE

Gene Info — CXCL12

Entrez GeneID

[6387](#)

Protein Accession#	P48061
Gene Name	CXCL12
Gene Alias	PBSF, SCYB12, SDF-1a, SDF-1b, SDF1, SDF1A, SDF1B, TLSF-a, TLSF-b, TPAR1
Gene Description	chemokine (C-X-C motif) ligand 12 (stromal cell-derived factor 1)
Omim ID	600835 609423
Gene Ontology	Hyperlink
Gene Summary	For background information on chemokines, see CXCL1 (MIM 155730). Stromal cell-derived factors 1-alpha and 1-beta are small cytokines that belong to the intercrine family, members of which activate leukocytes and are often induced by proinflammatory stimuli such as lipopolysaccharide, TNF (see MIM 191160), or IL1 (see MIM 147760). The intercrines are characterized by the presence of 4 conserved cysteines which form 2 disulfide bonds. They can be classified into 2 subfamilies. In the CC subfamily, which includes beta chemokine, the cysteine residues are adjacent to each other. In the CXC subfamily, which includes alpha chemokine, they are separated by an intervening amino acid. The SDF1 proteins belong to the latter group.[supplied by OMIM]
Other Designations	OTTHUMP00000019491 stromal cell-derived factor 1 delta stromal cell-derived factor 1 gamma stromal cell-derived factor 1a
