

# NRM polyclonal antibody

Catalog # PAB0348

Size 100 ug

## Applications

### Western Blot (Cell lysate)

Western blot analysis of NRM in A) human HeLa, B) mouse NIH/3T3, and C) human PC3 cell lysates. Using NRM polyclonal antibody (Cat # PAB0348) at 2 ug/mL .

## Specification

|                            |                                                                                                                        |
|----------------------------|------------------------------------------------------------------------------------------------------------------------|
| <b>Product Description</b> | Rabbit polyclonal antibody raised against synthetic peptide of NRM.                                                    |
| <b>Immunogen</b>           | A synthetic peptide corresponding to amino acids 200-250 of human NRM.                                                 |
| <b>Host</b>                | Rabbit                                                                                                                 |
| <b>Reactivity</b>          | Human, Mouse                                                                                                           |
| <b>Form</b>                | Liquid                                                                                                                 |
| <b>Recommend Usage</b>     | The optimal working dilution should be determined by the end user.                                                     |
| <b>Storage Buffer</b>      | In buffer containing 0.05% sodium azide, 0.2% gelatin                                                                  |
| <b>Storage Instruction</b> | Store at 4°C. For long term storage store at -20°C.<br>Aliquot to avoid repeated freezing and thawing.                 |
| <b>Note</b>                | This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |

## Applications

- Western Blot (Cell lysate)

Western blot analysis of NRM in A) human HeLa, B) mouse NIH/3T3, and C) human PC3 cell lysates. Using NRM polyclonal antibody (Cat # PAB0348) at 2 ug/mL .
