

# ACTB polyclonal antibody

Catalog # PAB18050      Size 100 ug

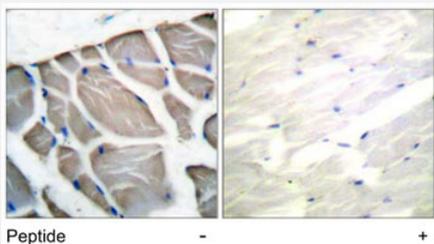

## Applications

### Western Blot (Cell lysate)

Western blot analysis of extracts from HeLa cells, using ACTB polyclonal antibody (Cat # PAB18050).

Peptide "+" means "with peptide blocking".

### Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

Immunohistochemical analysis of paraffin-embedded human skeletal muscle tissue using ACTB polyclonal antibody (Cat # PAB18050).

Peptide "+" means "with peptide blocking".

## Specification

**Product Description** Rabbit polyclonal antibody raised against synthetic peptide of ACTB.

**Immunogen** A synthetic peptide corresponding to human ACTB.

**Host** Rabbit

**Reactivity** Human, Mouse, Rat

**Specificity** This antibody is specific to ACTB.

**Form** Liquid

|                            |                                                                                                                                                          |
|----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Recommend Usage</b>     | Western Blot (1:500~1:1000)<br>Immunohistochemistry (1:50~1:100)<br>ELISA(1:10000)<br>The optimal working dilution should be determined by the end user. |
| <b>Storage Buffer</b>      | In PBS, 150mM NaCl, pH 7.4 (50% glycerol, 0.02% sodium azide)                                                                                            |
| <b>Storage Instruction</b> | Store at -20°C.<br>Aliquot to avoid repeated freezing and thawing.                                                                                       |
| <b>Note</b>                | This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.                                   |

## Applications

- Western Blot (Cell lysate)

Western blot analysis of extracts from HeLa cells, using ACTB polyclonal antibody (Cat # PAB18050).  
 Peptide "+" means "with peptide blocking".

- Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

Immunohistochemical analysis of paraffin-embedded human skeletal muscle tissue using ACTB polyclonal antibody (Cat # PAB18050).  
 Peptide "+" means "with peptide blocking".

- Immunohistochemistry

- Enzyme-linked Immunoabsorbent Assay

## Gene Info — ACTB

**Gene Summary**

This gene encodes one of six different actin proteins. Actins are highly conserved proteins that are involved in cell motility, structure, and integrity. This actin is a major constituent of the contractile apparatus and one of the two nonmuscle cytoskeletal actins. [provided by RefSeq]

**Other Designations**

PS1TP5-binding protein 1|actin, cytoplasmic 1|beta actin|beta cytoskeletal actin
