

ITGA2B polyclonal antibody

Catalog # PAB31163

Size 100 uL

Applications

Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

Immunohistochemical staining (Formalin-fixed paraffin-embedded sections) of human bone marrow with ITGA2B polyclonal antibody (Cat # PAB31163) shows strong cytoplasmic positivity in megakaryocytes.

Specification

Product Description	Rabbit polyclonal antibody raised against partial recombinant human ITGA2B.
Immunogen	Recombinant protein corresponding to human ITGA2B.
Sequence	CVPQLQLTASVTGSPLLVGADNVLELQMDAANE GEGAYEAE LAVHLPQGAHYMRALSNVEGFERLICNQKKENETRV
Host	Rabbit
Reactivity	Human
Form	Liquid
Purification	Antigen affinity purification
Isotype	IgG
Recommend Usage	Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections) (1:200-1:500) The optimal working dilution should be determined by the end user.
Storage Buffer	In PBS, pH 7.2 (40% glycerol, 0.02% sodium azide).

Storage Instruction

Store at 4°C for short term storage. For long term storage store at -20°C.
Aliquot to avoid repeated freezing and thawing.

Note

This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Applications

- Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

Immunohistochemical staining (Formalin-fixed paraffin-embedded sections) of human bone marrow with ITGA2B polyclonal antibody (Cat # PAB31163) shows strong cytoplasmic positivity in megakaryocytes.

Gene Name

ITGA2B

Gene Alias

CD41, CD41B, GP2B, GPIIb, GTA, HPA3

Gene Description

integrin, alpha 2b (platelet glycoprotein IIb of IIb/IIIa complex, antigen CD41)

Omim ID
[273800 607759](#)
Gene Ontology
[Hyperlink](#)
Gene Summary

ITGA2B encodes integrin alpha chain 2b. Integrins are heterodimeric integral membrane proteins composed of an alpha chain and a beta chain. Alpha chain 2b undergoes post-translational cleavage to yield disulfide-linked light and heavy chains that join with beta 3 to form a fibronectin receptor or expressed in platelets that plays a crucial role in coagulation. Mutations that interfere with this role result in thrombasthenia. In addition to adhesion, integrins are known to participate in cell-surface mediated signalling. [provided by RefSeq]

Other Designations

integrin alpha 2b|platelet fibrinogen receptor, alpha subunit|platelet-specific antigen BAK
