

ACE2 polyclonal antibody

Catalog # PAB31715 Size 100 uL

Applications

Western Blot (Cell lysate)

Western blot (Cell lysate) analysis of human HepG2.

Specification

Product Description Rabbit polyclonal antibody raised against synthetic protein of human ACE2.

Immunogen A synthetic peptide corresponding to human ACE2.

Host Rabbit

Reactivity Human

Form Liquid

Purification Affinity purification

Isotype IgG

Recommend Usage Western Blot (1:500-1:1000)
The optimal working dilution should be determined by the end user.

Storage Buffer In PBS, pH 7.3 (0.02% sodium azide).

Storage Instruction Store at 4°C.
Aliquot to avoid repeated freezing and thawing.

Note

This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Applications

- Western Blot (Cell lysate)

Western blot (Cell lysate) analysis of human HepG2.

Gene Info — ACE2

Entrez GeneID [59272](#)

Protein Accession# [Q9BYF1](#)

Gene Name ACE2

Gene Alias ACEH, DKFZp434A014

Gene Description angiotensin I converting enzyme (peptidyl-dipeptidase A) 2

Omim ID [300335](#)

Gene Ontology [Hyperlink](#)

Gene Summary The protein encoded by this gene belongs to the angiotensin-converting enzyme family of dipeptidyl carboxypeptidases and has considerable homology to human angiotensin 1 converting enzyme. This secreted protein catalyzes the cleavage of angiotensin I into angiotensin 1-9, and angiotensin II into the vasodilator angiotensin 1-7. The organ- and cell-specific expression of this gene suggests that it may play a role in the regulation of cardiovascular and renal function, as well as fertility. In addition, the encoded protein is a functional receptor for the spike glycoprotein of the human coronaviruses SARS and HCoV-NL63. [provided by RefSeq]
