

PIK3R1 polyclonal antibody

Catalog # PAB3220

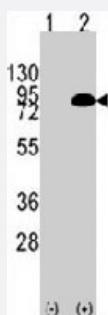

Size 400 uL

Applications

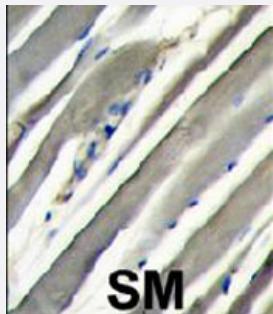

Western Blot (Cell lysate)

Western blot analysis of PIK3R1 polyclonal antibody (Cat # PAB3220) in CEM and HeLa cell line lysates (35 ug/lane). PIK3R1 (arrow) was detected using the purified polyclonal antibody (1 : 63 dilution).

Western Blot (Transfected lysate)

Western blot analysis of PIK3R1 polyclonal antibody (Cat # PAB3220) in 293 cell line lysates transiently transfected with the PIK3R1 gene (3 ug/lane). PI3KR1 (arrow) was detected using the purified polyclonal antibody (1 : 60 dilution).

Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

Formalin-fixed and paraffin-embedded human skeletal muscle tissue reacted with PIK3R1 polyclonal antibody (Cat # PAB3220), which was peroxidase-conjugated to the secondary antibody, followed by DAB staining. This data demonstrates the use of this antibody for immunohistochemistry; clinical relevance has not been evaluated.

Specification

Product Description

Rabbit polyclonal antibody raised against synthetic peptide of PIK3R1.

Immunogen

A synthetic peptide (conjugated with KLH) corresponding to N-terminus of human PIK3R1.

Host	Rabbit
Reactivity	Human
Form	Liquid
Purification	Protein G purification
Recommend Usage	Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections) (1:10-50) Western Blot (1:1000) The optimal working dilution should be determined by the end user.
Storage Buffer	In PBS (0.09% sodium azide)
Storage Instruction	Store at 4°C. For long term storage store at -20°C. Aliquot to avoid repeated freezing and thawing.
Note	This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Applications

- Western Blot (Cell lysate)

Western blot analysis of PIK3R1 polyclonal antibody (Cat # PAB3220) in CEM and Hela cell line lysates (35 ug/lane). PIK3R1 (arrow) was detected using the purified polyclonal antibody (1 : 63 dilution).

- Western Blot (Transfected lysate)

Western blot analysis of PIK3R1 polyclonal antibody (Cat # PAB3220) in 293 cell line lysates transiently transfected with the PIK3R1 gene (3 ug/lane). PI3KR1 (arrow) was detected using the purified polyclonal antibody (1 : 60 dilution).

- Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

Formalin-fixed and paraffin-embedded human skeletal muscle tissue reacted with PIK3R1 polyclonal antibody (Cat # PAB3220), which was peroxidase-conjugated to the secondary antibody, followed by DAB staining. This data demonstrates the use of this antibody for immunohistochemistry; clinical relevance has not been evaluated.

Gene Info — PIK3R1

Entrez GenelD	5295
Protein Accession#	NP_852556;P27986
Gene Name	PIK3R1
Gene Alias	GRB1, p85, p85-ALPHA

Gene Description	phosphoinositide-3-kinase, regulatory subunit 1 (alpha)
Omim ID	171833
Gene Ontology	Hyperlink
Gene Summary	Phosphatidylinositol 3-kinase phosphorylates the inositol ring of phosphatidylinositol at the 3-prime position. The enzyme comprises a 110 kD catalytic subunit and a regulatory subunit of either 85, 55, or 50 kD. This gene encodes the 85 kD regulatory subunit. Phosphatidylinositol 3-kinase plays an important role in the metabolic actions of insulin, and a mutation in this gene has been associated with insulin resistance. Alternative splicing of this gene results in three transcript variants encoding different isoforms. [provided by RefSeq]
Other Designations	phosphatidylinositol 3-kinase, regulatory subunit, polypeptide 1 (p85 alpha) phosphatidylinositol 3-kinase, regulatory, 1 phosphatidylinositol 3-kinase-associated p-85 alpha phosphoinositide-3-kinase, regulatory subunit 1 (p85 alpha) phosphoinositide-3-ki
