

INHBA polyclonal antibody

Catalog # PAB5409

Size 100 ug

Specification

Product Description	Rabbit polyclonal antibody raised against synthetic peptide of INHBA.
Immunogen	A synthetic peptide corresponding to N-terminus of human INHBA.
Host	Rabbit
Reactivity	Human, Mouse, Rat
Form	Liquid
Quality Control Testing	Antibody Reactive Against Synthetic Peptide.
Recommend Usage	The optimal working dilution should be determined by the end user.
Storage Buffer	In PBS, pH 7.2 (50% glycerol, 0.01% sodium azide)
Storage Instruction	Store at -20°C. Aliquot to avoid repeated freezing and thawing.
Note	This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Applications

- Western Blot
- Enzyme-linked Immunoabsorbent Assay

Gene Info — INHBA

Entrez GeneID [3624](#)

Gene Name INHBA

Gene Alias	EDF, FRP
Gene Description	inhibin, beta A
Omim ID	147290
Gene Ontology	Hyperlink
Gene Summary	The inhibin beta A subunit joins the alpha subunit to form a pituitary FSH secretion inhibitor. Inhibin has been shown to regulate gonadal stromal cell proliferation negatively and to have tumor-suppressor activity. In addition, serum levels of inhibin have been shown to reflect the size of granulosa-cell tumors and can therefore be used as a marker for primary as well as recurrent disease. Because expression in gonadal and various extragonadal tissues may vary severalfold in a tissue-specific fashion, it is proposed that inhibin may be both a growth/differentiation factor and a hormone. Furthermore, the beta A subunit forms a homodimer, activin A, and also joins with a beta B subunit to form a heterodimer, activin AB, both of which stimulate FSH secretion. Finally, it has been shown that the beta A subunit mRNA is identical to the erythroid differentiation factor subunit mRNA and that only one gene for this mRNA exists in the human genome. [provided by RefSeq]
Other Designations	FSH-releasing protein Inhibin, beta-1 erythroid differentiation factor follicle-stimulating hormone-releasing protein inhibin beta A inhibin, beta A (activin A, activin AB alpha polypeptide)
