

IL6R polyclonal antibody

Catalog # PAB6961 Size 100 ug

Specification

Product Description	Goat polyclonal antibody raised against synthetic peptide of IL6R.
Immunogen	A synthetic peptide corresponding to human IL6R.
Sequence	C-DNTSSSHNRPDARD
Host	Goat
Theoretical MW (kDa)	51.5
Specificity	This antibody is expected to recognize isoform 1 only (NP_000556.1).
Form	Liquid
Purification	Antigen affinity purification
Concentration	0.5 mg/mL
Quality Control Testing	Antibody Reactive Against Synthetic Peptide.
Recommend Usage	ELISA (1:8000) The optimal working dilution should be determined by the end user.
Storage Buffer	In Tris saline, pH 7.3 (0.5% BSA, 0.02% sodium azide)
Storage Instruction	Store at -20°C. Aliquot to avoid repeated freezing and thawing.
Note	This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Applications

- Enzyme-linked Immunoabsorbent Assay

Gene Info — IL6R

Entrez GeneID [3570](#)

Protein Accession# [NP_000556.1](#)

Gene Name IL6R

Gene Alias CD126, IL-6R-1, IL-6R-alpha, IL6RA, MGC104991

Gene Description interleukin 6 receptor

Omim ID [147880](#)

Gene Ontology [Hyperlink](#)

Gene Summary Interleukin 6 (IL6) is a potent pleiotropic cytokine that regulates cell growth and differentiation and plays an important role in immune response. The protein encoded by this gene is a subunit of the receptor complex for IL6. The IL6 receptor is a protein complex consisting of this protein and interleukin 6 signal transducer (IL6ST/GP130/IL6-beta), a receptor subunit also shared by many other cytokines. Dysregulated production of IL6 and this receptor are implicated in the pathogenesis of many diseases, such as multiple myeloma, autoimmune diseases and prostate cancer. Alternatively spliced transcript variants encoding distinct isoforms have been reported. [provided by RefSeq]

Other Designations CD126 antigen|OTTHUMP00000034320|interleukin 6 receptor alpha subunit
