

Goat Anti-Bovine IgG (H&L) secondary antibody

Catalog # PAB9139

Size 2 mL

Specification

Product Description	Goat anti-bovine IgG recognizes bovine IgG whole molecule. This secondary antibody was purified using delipidation and defibrination.
Immunogen	Bovine IgG whole molecule
Host	Goat
Reactivity	Bovine
Form	Lyophilized
Conjugation	Unconjugated
Purification	This product was prepared from monospecific antiserum by a delipidation and defibrination. Assay by immunoelectrophoresis resulted in a single precipitin arc against bovine IgG and bovine serum.
Recommend Usage	The optimal working dilution should be determined by the end user.
Storage Buffer	Lyophilized from 10 mM KH ₂ PO ₄ , 150 mM NaCl, pH 7.2
Storage Instruction	Store at 4°C on dry atmosphere. After reconstitution with 2 mL of deionized water, store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.

Applications

- Western Blot
- Immunohistochemistry
- Enzyme-linked Immunoabsorbent Assay
