

Rnase-free Water, non DEPC

Catalog # R0013

Size 2 x 50 mL, 5 x 1 mL, 500 mL

Specification

Product Description

RNase-free Water is suitable to experiment and research of RNA. The RNase-free Water, non DEPC was prepared from highly purified water by ultrafiltration without DEPC treatment. The product was confirmed to be free from RNase and DNase. Appearance is clear liquid.

Quality Control Testing

DNase activity: None DNase activity was detected after incubation plasmid DNA and this product for 18 hr at room temperature.
RNase activity: None RNase activity was detected after incubation ribosomal RNA and this product for 18 hr at room temperature.

Storage Instruction

Store at room temperature.

Applications

- Electrophoresis
