

RecomAb™

## CEA recombinant monoclonal antibody, clone Arcitumomab

Catalog # RAB00084

Size 200 ug

### Specification

<b>Product Description</b>	Rabbit recombinant monoclonal antibody raised against human Carcinoembryonic antigen (CEA).
----------------------------	---

<b>Antibody Species</b>	Rabbit
-------------------------	--------

<b>Immunogen</b>	Original antibody is raised against native purified human carcinoembryonic antigen (CEA).
------------------	---

<b>Reactivity</b>	Human
-------------------	-------

<b>Specificity</b>	This antibody recognizes human carcinoembryonic antigen.
--------------------	--

<b>Form</b>	Liquid
-------------	--------

<b>Purification</b>	Protein A affinity purification
---------------------	---------------------------------

<b>Isotype</b>	IgG, kappa
----------------	------------

<b>Recommend Usage</b>	Flow Cytometry (1 ug/mL) The optimal working dilution should be determined by the end user.
------------------------	--

<b>Storage Buffer</b>	In PBS, pH 7.2 (0.02% Proclin 300)
-----------------------	------------------------------------

<b>Storage Instruction</b>	Store at 4°C. For long term storage store at -20°C. Aliquot to avoid repeated freezing and thawing.
----------------------------	--

### Applications

- Flow Cytometry
