

RecomAb™

Beta-Galactosidase recombinant monoclonal antibody, clone 13R4

Catalog # RAB00201 Size 200 ug

Specification

Product Description	Human recombinant monoclonal antibody raised against Beta-Galactosidase.
----------------------------	--

Antibody Species	Human
-------------------------	-------

Immunogen	Original antibody is raised against Beta-galactosidase.
------------------	---

Reactivity	Escherichia coli
-------------------	------------------

Specificity	Wild-type E. coli beta-galactosidase.
--------------------	---------------------------------------

Form	Liquid
-------------	--------

Purification	Protein A affinity purification
---------------------	---------------------------------

Isotype	Human IgG4, lambda
----------------	--------------------

Recommend Usage	Flow Cytometry Negative Control Western Blot The optimal working dilution should be determined by the end user.
------------------------	--

Storage Buffer	In PBS (0.02% Proclin 300)
-----------------------	----------------------------

Storage Instruction	Store at 4°C. For long term storage store at -20°C. Aliquot to avoid repeated freezing and thawing.
----------------------------	--

Note	This is a chimeric antibody created as part of a panel offering antibodies of the same specificity in different formats (species, isotype, subtype and modified versions) for use as isotype controls.
-------------	--

Applications

- Western Blot
- Flow Cytometry
