

RecomAb™

VCAM1 recombinant monoclonal antibody, clone B-K9 (C106-K9)

Catalog # RAB03146 Size 200 ug

Specification

Product Description	Mouse recombinant monoclonal antibody raised against human VCAM1.
Antibody Species	Mouse
Immunogen	Original antibody is raised against activated human umbilical vein endothelial cells.
Reactivity	Human
Form	Liquid
Isotype	IgG1 kappa
Recommend Usage	Blocking Flow Cytometry The optimal working dilution should be determined by the end user.
Storage Buffer	In PBS with 0.02% Proclin 300
Storage Instruction	Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C. Aliquot to avoid repeated freezing and thawing.

Applications

- Blocking
- Flow Cytometry

Gene Info — VCAM1

Entrez GeneID	7412
Gene Name	VCAM1

Gene Alias	CD106, DKFZp779G2333, INCAM-100, MGC99561
Gene Description	vascular cell adhesion molecule 1
Omim ID	192225
Gene Ontology	Hyperlink
Gene Summary	This gene is a member of the Ig superfamily and encodes a cell surface sialoglycoprotein expressed by cytokine-activated endothelium. This type I membrane protein mediates leukocyte-endothelial cell adhesion and signal transduction, and may play a role in the development of atherosclerosis and rheumatoid arthritis. Two alternatively spliced transcripts encoding different isoforms have been described for this gene. [provided by RefSeq]
Other Designations	CD106 antigen OTTHUMP00000012650 OTTHUMP00000012651
