

RecomAb™

## SEPTIN5 recombinant monoclonal antibody, clone SP18

Catalog # RAB03366 Size 200 ug

Specification	
Product Description	Rabbit recombinant monoclonal antibody raised against human SEPTIN5.
Antibody Species	Rabbit
Immunogen	Original antibody is raised against immunoprecipitate from human brain.
Reactivity	Human, Rabbit, Rat
Form	Liquid
Conjugation	Unconjugated
Concentration	batch dependent
Isotype	lgG, kappa
Recommend Usage	ELISA Immunohistochemistry Western Blot The optimal working dilution should be determined by the end user.
Storage Buffer	In PBS with 0.02% Proclin 300
Storage Instruction	Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C. Aliquot to avoid repeated freezing and thawing.

## **Applications**

- Western Blot
- Immunohistochemistry
- Enzyme-linked Immunoabsorbent Assay

Gene Info — SEPT5	
Entrez GenelD	<u>5413</u>
Gene Name	SEPT5
Gene Alias	CDCREL, CDCREL-1, CDCREL1, H5, PNUTL1
Gene Description	septin 5
Omim ID	602724
Gene Ontology	<u>Hyperlink</u>
Gene Summary	This gene is a member of the septin gene family of nucleotide binding proteins, originally describ ed in yeast as cell division cycle regulatory proteins. Septins are highly conserved in yeast, Droso phila, and mouse and appear to regulate cytoskeletal organization. Disruption of septin function di sturbs cytokinesis and results in large multinucleate or polyploid cells. This gene is mapped to 22 q11, the region frequently deleted in DiGeorge and velocardiofacial syndromes. A translocation in volving the MLL gene and this gene has also been reported in patients with acute myeloid leukem ia. Two transcripts of this gene, a major one of 2.2 kb and a minor one of 3.5 kb, have been obser ved. The 2.2 kb form results from the utilization of a non-consensus polyA signal (AACAAT). In the absence of polyadenylation from this imperfect site, the consensus polyA signal of the downstrea m neighboring gene (GP1BB; platelet glycoprotein lb) is used, resulting in the 3.5 kb transcript. A n alternatively spliced transcript variant with a different 5' end has also been identified, but its full-length nature has not been completely determined. [provided by RefSeq
Other Designations	cell division control related protein 1 peanut-like 1 platelet glycoprotein lb beta chain
