

RecomAb™

IL2 recombinant monoclonal antibody, clone 1Q8G7

Catalog # RAB03573

Size 100 ug

Specification

Product Description	Rabbit recombinant monoclonal antibody raised against human IL2.
Antibody Species	Rabbit
Immunogen	Original antibody is raised against recombinant protein corresponding to amino acids Ala21-Thr153 of human IL2.
Reactivity	Viruses
Form	Liquid
Purification	Affinity purification
Concentration	1 mg/mL
Isotype	IgG
Recommend Usage	ELISA The optimal working dilution should be determined by the end user.
Storage Buffer	In PBS, pH 7.4
Storage Instruction	Store at 2 to -8°C for 1 month. For long term storage (1 year), aliquot and store at -20 to -80°C. Aliquot to avoid repeated freezing and thawing.

Applications

- Enzyme-linked Immunoabsorbent Assay

Gene Info — IL2

Gene Name	IL2
Gene Alias	IL-2, TCGF, lymphokine
Gene Description	interleukin 2
Omim ID	147680
Gene Ontology	Hyperlink
Gene Summary	The protein encoded by this gene is a secreted cytokine that is important for the proliferation of T and B lymphocytes. The receptor of this cytokine is a heterotrimeric protein complex whose gamma chain is also shared by interleukin 4 (IL4) and interleukin 7 (IL7). The expression of this gene in mature thymocytes is monoallelic, which represents an unusual regulatory mode for controlling the precise expression of a single gene. The targeted disruption of a similar gene in mice leads to ulcerative colitis-like disease, which suggests an essential role of this gene in the immune response to antigenic stimuli. [provided by RefSeq]
Other Designations	T cell growth factor aldesleukin interleukin-2 involved in regulation of T-cell clonal expansion
