

RecomAb™

MPO recombinant monoclonal antibody, clone 2G11

Catalog # RAB04049 Size 100 uL

Applications

Immunohistochemistry

Immunohistochemistry image of MPO recombinant monoclonal antibody, clone 2G11 diluted at 1:100 and staining in paraffin-embedded human spleen tissue performed on a Leica Bond™ system.

Specification

Product Description	Rabbit recombinant monoclonal antibody raised against human MPO.
Antibody Species	Rabbit
Immunogen	Original antibody is raised against recombinant protein corresponding to full length human MPO.
Reactivity	Human
Form	Liquid
Purification	Affinity-chromatography
Isotype	IgG
Recommend Usage	ELISA Immunohistochemistry (1:50-1:200) The optimal working dilution should be determined by the end user.
Storage Buffer	In PBS, pH7.4 (150mM NaCl, 50% glycerol and 0.02% sodium azide)
Storage Instruction	Store at -20 °C or -80 °C. Aliquot to avoid repeated freezing and thawing.

Note

This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Applications

- Immunohistochemistry

Immunohistochemistry image of MPO recombinant monoclonal antibody, clone 2G11 diluted at 1:100 and staining in paraffin-embedded human spleen tissue performed on a Leica Bond™ system.

- Enzyme-linked Immunoabsorbent Assay

Gene Info — MPO

Entrez GeneID	4353
---------------	----------------------

Protein Accession#	P05164
--------------------	------------------------

Gene Name	MPO
-----------	-----

Gene Alias	-
------------	---

Gene Description	myeloperoxidase
------------------	-----------------

Omim ID	104300 254600 606989
---------	--

Gene Ontology	Hyperlink
---------------	---------------------------

Gene Summary	Myeloperoxidase (MPO) is a heme protein synthesized during myeloid differentiation that constitutes the major component of neutrophil azurophilic granules. Produced as a single chain precursor, myeloperoxidase is subsequently cleaved into a light and heavy chain. The mature myeloperoxidase is a tetramer composed of 2 light chains and 2 heavy chains. This enzyme produces hypohalous acids central to the microbicidal activity of neutrophils. [provided by RefSeq]
