

RecomAb™

TIA1 recombinant monoclonal antibody, clone R09-6A6

Catalog # RAB06528 Size 100 uL

Specification		
Antibody Species Rabbit Immunogen Original antibody is raised against recombinant protein corresponding to human TIA1. Theoretical MW (kDa) Calculated MW: 43 kD Reactivity Human, Mouse Form Liquid Purification Affinity purification Isotype IgG Recommend Usage Immunohistochemistry (1:50-1:100) Immunofluorescence(1:50-1:200) Immunoprecipitation(1:20) Western Blot (1:500-1:1000) The optimal working dilution should be determined by the end use. Storage Buffer In PBS, 150 mM NaCl, pH 7.4 (50% glycerol and 0.02% Sodium azide) Storage Instruction Store at 4°C. For long term storage store at -20°C. Aliquot to avoid repeated freezing and thawing. Note This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which shoul	Specification

Applications

Western Blot

- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation

Gene Info — TIA1	
Entrez GenelD	<u>7072</u>
Gene Name	TIA1
Gene Alias	-
Gene Description	TIA1 cytotoxic granule-associated RNA binding protein
Omim ID	603518
Gene Ontology	<u>Hyperlink</u>
Gene Summary	The product encoded by this gene is a member of a RNA-binding protein family and possesses n ucleolytic activity against cytotoxic lymphocyte (CTL) target cells. It has been suggested that this p rotein may be involved in the induction of apoptosis as it preferentially recognizes poly(A) homopo lymers and induces DNA fragmentation in CTL targets. The major granule-associated species is a 15-kDa protein that is thought to be derived from the carboxyl terminus of the 40-kDa product by proteolytic processing. Alternative splicing resulting in different isoforms of this gene product has been described in the literature. [provided by RefSeq
