Datasheet

Cytokeratin monoclonal antibody, clone KL1

Catalog Number: MAB3520

Regulation Status: For research use only (RUO)

Product Description: Mouse monoclonal antibody raised against native Cytokeratin.

Clone Name: KL1

Immunogen: Native purified Cytokeratin from human stratum corneum.

Host: Mouse

Theoretical MW (kDa): 56

Reactivity: Human, Mouse

Applications: IHC-P
(See our web site product page for detailed applications information)

Protocols: See our web site at http://www.abnova.com/support/protocols.asp or product page for detailed protocols

Specificity: This antibody reacts with cytokeratin 56 kDa (CK 1,2,5,6,7,8,11,14,16,17 and 18 according to the nomenclature by Moll).

Form: Liquid

Isotype: IgG1

Recommend Usage: Immunohistochemistry (1:10-1:20)
The optimal working dilution should be determined by the end user.

Storage Buffer: Liquid concentrate in phosphate buffer, pH 7.3 (0.09% sodium azide)

Storage Instruction: Store at 4°C. Do not freeze.
