

Double-stranded RNA (dsRNA) ELISA Kit

Catalog # KA6886

Size 200 Reactions

Specification

Product Description	Double-stranded RNA (dsRNA) ELISA Kit is used for sensitive and selective detection of dsRNA molecules.
Host	Mouse
Isotype	IgG2a, kappa
Recommend Usage	ELISA In Vitro Transcription The optimal working dilution should be determined by the end user.
Storage Instruction	Store at -20°C. Aliquot to avoid repeated freezing and thawing.

Applications

- Enzyme-linked Immunoabsorbent Assay
- In vitro Transcription
