RecomAb™

Mouse immunoglobulin lambda light chain monoclonal antibody, clone RM110 (Biotin)

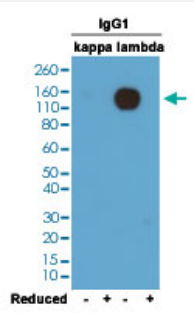

Catalog # MAB14932 Size 50 ug

Applications

Enzyme-linked Immunoabsorbent Assay

ELISA analysis of Mouse immunoglobulin lambda light chain monoclonal antibody, clone RM110 (Cat # MAB12763) at the following concentrations: 0.2 ug/mL, 0.05 ug/mL, and 0.01 ug/mL. The plate was coated with 50 ng/well of different immunoglobulins and the result shows this antibody reacts to the lambda light chain of mouse immunoglobulins. No cross reactivity with the kappa light chain, human IgG, rat IgG, or goat IgG. An alkaline phosphatase conjugated anti-rabbit IgG as the secondary antibody.

Western Blot

Western blot analysis of nonreduced (-) and reduced (+) mouse IgG1 (kappa) and IgG1 (lambda) (20 ng/lane) with Mouse immunoglobulin lambda light chain monoclonal antibody, clone RM110 (Biotin) (Cat # MAB14932) at 0.2 ug/mL working concentration. This antibody reacts to nonreduced IgG1 (lambda).

Specification

Product Description	Rabbit recombinant monoclonal antibody raised against mouse immunoglobulin lambda light chain.
Antibody Species	Rabbit
Immunogen	Original antibody is raised against mouse IgM lambda.
Sequence	N/A
Reactivity	Mouse

Copyright © 2023 Abnova Corporation. All Rights Reserved.

Form	Liquid
Conjugation	Biotin
Purification	Protein A purification
Isotype	IgG
Recommend Usage	ELISA (0.005-0.2 ug/mL) Flow Cytometry Immunocytochemistry (0.5-2 ug/mL) Immunohistochemistry (0.5-2 ug/mL) Immunoprecipitation Western Blotting (0.1-0.5 ug/mL) The optimal working dilution should be determined by the end user.
Storage Buffer	In PBS (50% glycerol, 1% BSA, 0.09% sodium azide)
Storage Instruction	Store at -20°C. Aliquot to avoid repeated freezing and thawing.
Note	This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which shoul d be handled by trained staff only.

Applications

- Immunohistochemistry
- Immunocytochemistry
- Flow Cytometry
- Enzyme-linked Immunoabsorbent Assay

  ELISA analysis of Mouse immunoglobulin lambda light chain monoclonal antibody, clone RM110 (Cat # MAB12763) at the following concentrations: 0.2 ug/mL, 0.05 ug/mL, and 0.01 ug/mL. The plate was coated with 50 ng/well of different immunoglobulins and the result shows this antibody reacts to the lambda light chain of mouse immunoglobulins. No cross reactivity with the kappa light chain, human IgG, rat IgG, or goat IgG. An alkaline phosphatase conjugated anti-rabbit IgG as the secondary antibody.

- Immunoprecipitation
- Western Blot

  Western blot analysis of nonreduced (-) and reduced (+) mouse IgG1 (kappa) and IgG1 (lambda) (20 ng/lane) with Mouse immunoglobulin lambda light chain monoclonal antibody, clone RM110 (Biotin) (Cat # MAB14932) at 0.2 ug/mL working concentration. This antibody reacts to nonreduced IgG1 (lambda).

Gene Info — Igl-C1

Entrez GeneID	110785
Protein Accession#	P01843
Gene Name	Igl-C1
Gene Alias	Clambda1
Gene Description	immunoglobulin lambda chain, constant region 1
Gene Ontology	Hyperlink
Gene Summary	O
Other Designations	-
