

Agarose Ultra Pure

Catalog # D0021

Size 500 g, 100 g

Specification

Product Description

Ideal for everyday analysis of nucleic acids by gel electrophoresis or blotting (Northern or Southern) and is also suitable for protein applications. No background fluorescence has been detected by ethidium bromide assay. DNase/RNase-free.

Storage Instruction

Store at room temperature. Light Sensitive.

Applications

- Polymerase Chain Reaction
- Electrophoresis
