

# BRAF monoclonal antibody (M07), clone 1F2

Catalog # H00000673-M07

Size 100 ug

## Applications

### Sandwich ELISA (Recombinant protein)

Detection limit for recombinant GST tagged BRAF is approximately 0.1ng/ml as a capture antibody.

Western Blot detection against Immunogen (36.34 KDa) .

## Specification

### Product Description

Mouse monoclonal antibody raised against a partial recombinant BRAF.

### Immunogen

BRAF (NP\_004324, 138 a.a. ~ 231 a.a) partial recombinant protein with GST tag. MW of the GST tag alone is 26 KDa.

### Sequence

**Gene Summary**

This gene encodes a protein belonging to the raf/mil family of serine/threonine protein kinases. This protein plays a role in regulating the MAP kinase/ERKs signaling pathway, which affects cell division, differentiation, and secretion. Mutations in this gene are associated with cardiofaciocutaneous syndrome, a disease characterized by heart defects, mental retardation and a distinctive facial appearance. Mutations in this gene have also been associated with various cancers, including non-Hodgkin lymphoma, colorectal cancer, malignant melanoma, thyroid carcinoma, non-small cell lung carcinoma, and adenocarcinoma of lung. A pseudogene, which is located on chromosome X, has been identified for this gene. [provided by RefSeq]

**Other Designations**

94 kDa B-raf protein|B-Raf proto-oncogene serine/threonine-protein kinase (p94)|Murine sarcoma viral (v-raf) oncogene homolog B1
