

ABCC2 polyclonal antibody (A01)

Catalog # H00001244-A01

Size 50 uL

Specification

Product Description	Mouse polyclonal antibody raised against a partial recombinant ABCC2.
Immunogen	ABCC2 (NP_000383, 214 a.a. ~ 313 a.a) partial recombinant protein with GST tag.
Sequence	LKG YKRPLTLEDVWEVDEEMKTKTLVSKFETHMKRELQKARRALQRRQEKSSQQNSGARLPGL NKNQSQSQDALVLEDVEKKKKKSGTKKDVPKSWLMKA
Host	Mouse
Reactivity	Human
Interspecies Antigen Sequence	Mouse (64); Rat (62)
Quality Control Testing	Antibody Reactive Against Recombinant Protein.
Storage Buffer	50 % glycerol
Storage Instruction	Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.

Applications

- ELISA

Gene Info — ABCC2

Entrez GeneID	1244
GeneBank Accession#	NM_000392
Protein Accession#	NP_000383
Gene Name	ABCC2

Gene Alias	ABC30, CMOAT, DJS, KIAA1010, MRP2, cMRP
Gene Description	ATP-binding cassette, sub-family C (CFTR/MRP), member 2
Omim ID	237500 601107
Gene Ontology	Hyperlink
Gene Summary	The protein encoded by this gene is a member of the superfamily of ATP-binding cassette (ABC) transporters. ABC proteins transport various molecules across extra- and intra-cellular membranes. ABC genes are divided into seven distinct subfamilies (ABC1, MDR/TAP, MRP, ALD, OABP, GCN20, White). This protein is a member of the MRP subfamily which is involved in multi-drug resistance. This protein is expressed in the canalicular (apical) part of the hepatocyte and functions in biliary transport. Substrates include anticancer drugs such as vinblastine; therefore, this protein appears to contribute to drug resistance in mammalian cells. Several different mutations in this gene have been observed in patients with Dubin-Johnson syndrome (DJS), an autosomal recessive disorder characterized by conjugated hyperbilirubinemia. [provided by RefSeq]
Other Designations	OTTHUMP00000020267 canalicular multispecific organic anion transporter
