

# DLAT rabbit monoclonal antibody

Catalog # H00001737-K      Size 100 ug x up to 3

## Specification

|                                |                                                                                                                                                                                                                                                                                                                           |
|--------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Description</b>     | Rabbit monoclonal antibody raised against a human DLAT peptide using ARM Technology.                                                                                                                                                                                                                                      |
| <b>Immunogen</b>               | A synthetic peptide of human DLAT is used for rabbit immunization.<br>Customer or Abnova will decide on the preferred peptide sequence.                                                                                                                                                                                   |
| <b>Host</b>                    | Rabbit                                                                                                                                                                                                                                                                                                                    |
| <b>Library Construction</b>    | Non-fusion antibody library from rabbit spleen ( <a href="#">ARM Technology</a> ).                                                                                                                                                                                                                                        |
| <b>Expression</b>              | Overexpression vector and transfection into 293H cell line.                                                                                                                                                                                                                                                               |
| <b>Reactivity</b>              | Human                                                                                                                                                                                                                                                                                                                     |
| <b>Purification</b>            | Protein A                                                                                                                                                                                                                                                                                                                 |
| <b>Isotype</b>                 | IgG                                                                                                                                                                                                                                                                                                                       |
| <b>Quality Control Testing</b> | Antibody reactive against human DLAT peptide by ELISA and mammalian transfected lysate by Western Blot.                                                                                                                                                                                                                   |
| <b>Storage Buffer</b>          | In 1x PBS, pH 7.4                                                                                                                                                                                                                                                                                                         |
| <b>Storage Instruction</b>     | Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.                                                                                                                                                                                                                                                  |
| <b>Deliverable</b>             | Up to three rabbit IgG clones of 100 ug each will be delivered to customer.                                                                                                                                                                                                                                               |
| <b>Note</b>                    | <ol style="list-style-type: none"><li>Customer may provide cell or tissue lysate for antibody screening.</li><li>Rabbit monoclonal antibody generated by ARM technology is amenable to antibody engineering including F(ab)<sub>2</sub>, IgG, scFv and different Fc and non-Fc conjugates per customer request.</li></ol> |

## Applications

- Western Blot (Transfected lysate)

[Protocol Download](#)

- ELISA

## Gene Info — DLAT

| Gene Summary        | The DLAT gene encodes dihydrolipoamide acetyltransferase (EC 2.3.1.12), the E2 subunit of the mammalian pyruvate dehydrogenase complex (PDC; EC 1.2.4.1) of the inner mitochondrial membrane. Patients with primary biliary cirrhosis (PBC; MIM 109720) show autoantibodies to DLAT.[s applied by OMIM] |
| Other Designations  | 70 kDa mitochondrial autoantigen of primary biliary cirrhosis E2 component of pyruvate dehydrogenase complex M2 antigen complex 70 kDa subunit                                                                                                                                                          |
