

MaxPab®

# LXN MaxPab mouse polyclonal antibody (B01P)

Catalog # H00056925-B01P

Size 50 ug

## Applications

### Western Blot (Transfected lysate)

Western Blot analysis of LXN expression in transfected 293T cell line ([H00056925-T01](#)) by LXN MaxPab polyclonal antibody.

Lane 1: LXN transfected lysate(24.42 KDa).

Lane 2: Non-transfected lysate.

## Specification

|                               |                                                                                                                                                                                                                                        |
|-------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Description           | Mouse polyclonal antibody raised against a full-length human LXN protein.                                                                                                                                                              |
| Immunogen                     | LXN (NP_064554.2, 1 a.a. ~ 222 a.a) full-length human protein.                                                                                                                                                                         |

| Host                          | Mouse                                                                                                                                                                                                                                  |
| Reactivity                    | Human                                                                                                                                                                                                                                  |
| Interspecies Antigen Sequence | Mouse (84); Rat (84)                                                                                                                                                                                                                   |
| Quality Control Testing       | Antibody reactive against mammalian transfected lysate.                                                                                                                                                                                |
| Storage Buffer                | In 1x PBS, pH 7.4                                                                                                                                                                                                                      |
| Storage Instruction           | Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.                                                                                                                                                               |

## Applications

- Western Blot (Transfected lysate)

Western Blot analysis of LXN expression in transfected 293T cell line ([H00056925-T01](#)) by LXN MaxPab polyclonal antibody.

Lane 1: LXN transfected lysate(24.42 KDa).

Lane 2: Non-transfected lysate.
