

ACD (Human) IP-WB Antibody Pair

Catalog # H00065057-PW2

Size 1 Set

Applications

Immunoprecipitation of ACD transfected lysate using rabbit polyclonal anti-ACD and Protein A Magnetic Bead ([U0007](#)), and immunoblotted with mouse purified polyclonal anti-ACD.

Specification

Product Description	This IP-WB antibody pair set comes with one antibody for immunoprecipitation and another to detect the precipitated protein in western blot.
Reactivity	Human
Interspecies Antigen Sequence	Mouse (59); Rat (61)
Quality Control Testing	Immunoprecipitation-Western Blot (IP-WB) Immunoprecipitation of ACD transfected lysate using rabbit polyclonal anti-ACD and Protein A Magnetic Bead (U0007), and immunoblotted with mouse purified polyclonal anti-ACD.
Supplied Product	Antibody pair set content: 1. Antibody pair for IP: rabbit polyclonal anti-ACD (300 ul) 2. Antibody pair for WB: mouse purified polyclonal anti-ACD (50 ug)
Storage Instruction	Store reagents of the antibody pair set at -20°C or lower. Please aliquot to avoid repeated freeze thaw cycle. Reagents should be returned to -20°C storage immediately after use.

Applications

- Immunoprecipitation-Western Blot

Gene Info — ACD

Entrez GeneID	65057
Gene Name	ACD
Gene Alias	PIP1, PTOP, TINT1, TPP1
Gene Description	adrenocortical dysplasia homolog (mouse)
Omim ID	609377
Gene Ontology	Hyperlink
Gene Summary	<p>This gene encodes a protein that is involved in telomere function. This protein is one of six core proteins in the telosome/shelterin telomeric complex, which functions to maintain telomere length and to protect telomere ends. Through its interaction with other components, this protein plays a key role in the assembly and stabilization of this complex, and it mediates the access of telomerase to the telomere. Multiple transcript variants encoding different isoforms have been found for this gene. This gene, which is also referred to as TPP1, is distinct from the unrelated TPP1 gene on chromosome 11, which encodes tripeptidyl-peptidase I. [provided by RefSeq]</p>
Other Designations	POT1 and TIN2 organizing protein TIN2 interacting protein 1 adrenocortical dysplasia homolog
