

Protein Phosphatase Cdc25 Combo Fluorometric (Human) Assay Kit

Catalog # KA0086 Size 1 Kit

Applications

Dose dependent curve of recombinant Cdc25C catalytic domain.

Specification

| | |
|--------------------------------|--|
| Product Description | Protein Phosphatase Cdc25 Combo Fluorometric (Human) Assay Kit is a fluorometric and non-radio active assay designed to measure the activity of Cdc25A, B and C protein phosphatase. |
| Reactivity | Human |
| Regulation Status | For research use only (RUO) |
| Quality Control Testing | Dose dependent curve Dose dependent curve of recombinant Cdc25C catalytic domain. |
| Storage Instruction | Store the kit at -20°C. Recombinant protein should be stored at -80°C. |

Applications

- Functional Study
