

NF-κB (human p50) Transcription Factor Assay Kit

Catalog # KA1339

Size 1 Kit

Applications

Result Data

Result Data

□

Sensitivity of the NF-κB assay using purified human recombinant p50.

Specification

Product Description	NF-κB (human p50) Transcription Factor Assay Kit is a non-radioactive method for detecting specific transcription factor DNA binding activity.
Regulation Status	For research use only (RUO)
Storage Instruction	Store the kit at -80°C temporarily. For best results, store the components as described in the protocol.
Note	Result Data Result Data Sensitivity of the NF-κB assay using purified human recombinant p50.

Applications

- Functional Study
