TGFB1 (Human) ELISA Kit

Catalog # KA3826 Size 1 Kit

Applications

The standard curve is for the purpose of demonstration only and should not be used to calculate unknowns. A standard curve should be generated each time the assay is performed.

Specification

Product Description	TGFB1 (Human) ELISA Kit is a sandwich enzyme immunoassay for the quantitative measurement of human TGFB1.
Suitable Sample	Cell Culture Supernatant, Milk, Plasma, Serum
Sample Volume	50 uL
Label	Peroxidase-conjugated
Detection Method	Colorimetric
Assay Type	Quantitative
Intra-Assay	4.9%
Inter-Assay	7.2%
Spiking Recovery	99%
Reactivity	Human
Regulation Status	For research use only (RUO)

Copyright © 2023 Abnova Corporation. All Rights Reserved.

Quality Control Testing	Standard curve The standard curve is for the purpose of demonstration only and should not be used to calculate unkn owns. A standard curve should be generated each time the assay is performed.
Storage Instruction	Store the kit at 4°C. For long term storage, please store at -20°C.

Applications

- Quantification

Gene Info — TGFB1

Entrez GeneID	7040
Gene Name	TGFB1
Gene Alias	CED, DPD1, TGFB, TGFbeta
Gene Description	transforming growth factor, beta 1
Omim ID	131300 190180 219700
Gene Ontology	Hyperlink
Gene Summary	TGFB is a multifunctional peptide that controls proliferation, differentiation, and other functions in many cell types. TGFB acts synergistically with TGFA (MIM 190170) in inducing transformation. It also acts as a negative autocrine growth factor. Dysregulation of TGFB activation and signaling m ay result in apoptosis. Many cells synthesize TGFB and almost all of them have specific receptors for this peptide. TGFB1, TGFB2 (MIM 190220), and TGFB3 (MIM 190230) all function through the same receptor signaling systems.[supplied by OMIM
Other Designations	TGF-beta 1 protein|diaphyseal dysplasia 1, progressive|transforming growth factor-beta 1

Pathway

- Cell cycle
