Plant Chromatin Extraction Kit

Catalog # KA3926 Size 1 Kit

Applications

Result Data

Result Data

ChIP analysis of tri-methyl H3-K27 enriched in AGAMOUS gene with chromatin extract prepared from 2-week-old icu2-1/icu2-1 seedlings.

Specification

Product Description	Plant Chromatin Extraction Kit is used for isolating chromatin or DNA-protein complex from plants.
Suitable Sample	Cell, Tissue
Reactivity	Plants
Regulation Status	For research use only (RUO)
Storage Instruction	Store Protease Inhibitor Cocktails at 4°C. Store remaining components at room temperature.
Note	Result Data Result Data ChIP analysis of tri-methyl H3-K27 enriched in AGAMOUS gene with chromatin extract prepared fro m 2-week-old icu2-1/icu2-1 seedlings.

Applications

- Functional Study
