ADP Assay Kit

Catalog # KA7500 Size 1 Kit

Applications

Qualitative

ADP Standard Curve in water

Specification

Product Description	ADP Assay Kit for quantitative determination of ADP determination in cells and other biological samples.
Available Test	100 tests
Detection Method	FL 530/590 nm
Limit of Detection	0.1 uM
Regulatory Status	For research use only (RUO)
Quality Control Testing	The standard curve is for the purpose of illustration only and should not be used to calculate unknowns. A standard curve should be generated each time the assay is performed.
Storage Instruction	Store at -20°C. Avoid multiple freeze-thaw cycles.
