Acid Phosphatase Assay Kit

Catalog # KA7534 Size 1 Kit

Applications

Qualitative

Standard Curve in 96-well plate assay in water.

Specification

Product Description	Acid Phosphatase Assay Kit for quantitative determination of acid phosphatase activity in biological samples.
Available Test	100 tests
Detection Method	FL 360/450 nm
Limit of Detection	0.008 U/L
Regulatory Status	For research use only (RUO)
Quality Control Testing	The standard curve is for the purpose of illustration only and should not be used to calculate unknowns. A standard curve should be generated each time the assay is performed.
Storage Instruction	Store at -20°C. Avoid multiple freeze-thaw cycles.
