PTEN monoclonal antibody, clone HBH-16

Catalog # MAB20639 Size 100 uL

Applications

Western Blot (Cell lysate)

Western Blot analysis of Hela cell lysate using PTEN monoclonal antibody, clone HBH-16.

Specification

Product Description	Rabbit monoclonal antibody raised against synthetic peptide of human PTEN.
Immunogen	A synthetic peptide corresponding to human PTEN.
Host	Rabbit
Reactivity	Human
Form	Liquid
Purification	Affinity purification
Isotype	IgG
Recommend Usage	Immunocytochemistry (1:50-1:200) Immunofluorescence (1:50-1:200) Immunohistochemistry (1:50-1:200) Western Blot (1:1000-1:2000) The optimal working dilution should be determined by the end user.
Storage Buffer	In PBS, 150 mM NaCl, pH 7.4 (50% glycerol, 0.02% sodium azide).

Copyright © 2023 Abnova Corporation. All Rights Reserved.

Storage Instruction	Store at -20°C for one year. After reconstitution, at 4°C for one month. It can also be aliquotted and st ored frozen at -20°C for a longer time. Avoid repeated freezing and thawing.
Note	This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which shoul d be handled by trained staff only.

Applications

- Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)
- Immunofluorescence
- Immunocytochemistry
- Western Blot (Cell lysate)

  Western Blot analysis of Hela cell lysate using PTEN monoclonal antibody, clone HBH-16.

Gene Info — PTEN

Entrez GeneID	5728
Protein Accession#	P60484
Gene Name	PTEN
Gene Alias	10q23del, BZS, MGC11227, MHAM, MMAC1, PTEN1, TEP1
Gene Description	phosphatase and tensin homolog
Omim ID	137800 153480 158350 174900 176807 176920 188470 276950 601728 605309 607174
Gene Ontology	Hyperlink
Gene Summary	This gene was identified as a tumor suppressor that is mutated in a large number of cancers at hi gh frequency. The protein encoded this gene is a phosphatidylinositol-3,4,5-trisphosphate 3-phos phatase. It contains a tensin like domain as well as a catalytic domain similar to that of the dual sp ecificity protein tyrosine phosphatases. Unlike most of the protein tyrosine phosphatases, this prot ein preferentially dephosphorylates phosphoinositide substrates. It negatively regulates intracellul ar levels of phosphatidylinositol-3,4,5-trisphosphate in cells and functions as a tumor suppressor by negatively regulating AKT/PKB signaling pathway. [provided by RefSeq
Other Designations	MMAC1 phosphatase and tensin homolog deleted on chromosome 10|OTTHUMP00000020032| mutated in multiple advanced cancers 1
